Years of Experience- 10 years

Objective- Product leader with 10 years building AI agents in regulated insurance and financial services — the rare combination Harper needs. At MetLife (insurance), owned AI agent deployment: IVAs, Salesforce CoPilot, and context-engineered NBA workflows that automated sales and operations calls, achieving a **43% operational efficiency gain** and **30% revenue uplift**. Partnered with AI Labs on Generative AI discovery and data-grounding — the practical context engineering that makes AI agents make better decisions. At Sprinklr, bridged engineering and business across 25 enterprise accounts, translating complex commercial requirements into shipped product. Ready to be Harper's first PM: own roadmap end-to-end, ship with AI-native speed, and drive the revenue and customer growth metrics that matter at seed stage.

Skills-

AI Agent Product Strategy (Context Engineering, IVA, CoPilot, Agentic Workflows, NBA)
Insurance & Regulated Financial Services Domain (MetLife, Compliance, Claims, US Markets)
Founding PM Mindset — 0-to-1 Product Building, Revenue-First Prioritisation, Fast Iteration
Engineering-Business Translation, Cross-Functional Leadership, Stakeholder Alignment
Data-Led Experimentation, Generative AI Discovery, Feasibility Assessment, AI Lifecycle Ownership
Remote-First Execution, Global Market Experience (India, UAE, US, Europe)

Languages- English (native), Hindi (native), Spanish (intermediate), German (basic)

Education-

Master's Program in Data Analytics, IBM Institute
B.Sc. in Economics and Statistics, Calcutta University

Certifications-

AI Product Management Specialisation, Duke University | Salesforce AI | Google Digital Transformation
Microsoft Azure | Agile Scrum, GSDC | ITIL 4 | Dubai Entrepreneurship Academy | 1 Million Prompts

WORK EXPERIENCE

MetLife | Bangalore, India | Product Management | Aug 2025 to Present

- Owned AI agent product roadmap for a US insurance enterprise — deployed IVAs and Salesforce CoPilot as production AI agents handling sales calls, case triage, and operations automation, achieving a **43% operational efficiency gain** and **30% revenue uplift**.
- Led context engineering for Generative AI agents with Data Science: defined grounding strategies, data contexts, and decision logic that delivered a **24% increase in customer engagement** — the same work Harper needs to make its AI brokerage reliable.
- Acted as translator between Engineering, AI Labs, and business leadership: turned commercial insurance requirements into product specs, managed build-vs-buy decisions, and shipped NBA agentic workflows that reduced Average Handle Time by **30%**.
- Governed an **\$18M global AI portfolio** with a revenue-first lens: tracked profitability, market penetration, and customer growth metrics — securing a **15% profitability lift** and **30% market penetration growth**.

Kimberly-Clark Pvt Ltd | Bangalore, India | Product Management | Nov 2022 to Jan 2025

- Owned an **\$18M global AI product portfolio** with a mandate to scale fast: deployed multi-channel AI tools (Voice, SMS, WhatsApp) across 20+ markets in under 18 months, maximising ROI by **30%**.
- Defined product strategy end-to-end — from opportunity identification through engineering delivery to market adoption — achieving a **30% market share expansion** and **24% engagement uplift**.
- Applied OPD/1PD/2PD data loops and predictive analytics; governed compliance across international markets (UAE Data Residency, GDPR, PDPL) — building regulatory guardrails without slowing product velocity.

Sprinklr | Bangalore, India | Lead Product Consultant | May 2021 to Nov 2022

- Bridged engineering and sales/operations across **25 high-ARR enterprise accounts** — translated complex commercial requirements into shipped product features; onboarded **10 new enterprise customers**.
- Ran 0-to-1 product delivery cycles: discovery → build → ship → measure. Drove **50% platform performance uplift** and **45% lead conversion gain** through fast iteration and analytics-led prioritisation.

ITC Infotech | Bangalore, India | Business Analyst | Dec 2019 to Apr 2021

- Built a VoC NLP feedback system from scratch for an insurance tech platform — defined scope, shipped the product, and measured impact: **20% churn reduction** and **40% CSAT improvement**.
- Owned Agile roadmap end-to-end; ran discovery, prioritisation, and delivery aligned to insurance compliance requirements.

Tangban International | New Delhi, India | International Marketing Analyst | Apr 2017 to Nov 2019

- Grew client database by **20%** and increased market penetration by **30%** through revenue-focused strategic funnels across international markets.
