Years of Experience- 10 years

Objective- Senior AI Product Manager with 10 years owning multi-agent AI platforms, integration pipelines, and no-code automation tools at enterprise scale. At Kimberly-Clark, directed an **\$18M global AI platform portfolio** deploying multi-channel agent pipelines (Voice, SMS, WhatsApp) across 20+ markets — making data-driven prioritisation calls across integrations, reliability, and adoption. At MetLife, partnered with AI Labs on Generative AI discovery, data-grounding, and agent architecture feasibility — delivering a **24% engagement increase** and **43% operational efficiency gain**. Strong track record of fast-shipping data-driven product decisions for platform products with 50%+ performance uplift. Ready to bring multi-agent platform PM experience to Relevance AI's Builders product as a remote-first senior leader.

Skills-

Multi-Agent AI Platform PM (Builders, Workflows, No-Code/Low-Code, Integrations, Observability)
Data-Driven Prioritisation, Usage Metrics, Experimentation, A/B Testing, OKR Definition
AI Architecture Feasibility, Context Engineering, Generative AI Data-Grounding
Enterprise B2B SaaS, Multi-Channel Deployment (Voice, SMS, WhatsApp, API Pipelines)
Engineering Collaboration (AI Labs, Data Science, Platform Engineering), Technical Acumen
Remote-First Execution, Fast Iteration, High-Growth Startup Pace, Global Portfolio Governance

Languages- English (native), Hindi (native), Spanish (intermediate), German (basic)

Education-

Master's Program in Data Analytics, IBM Institute
B.Sc. in Economics and Statistics, Calcutta University

Certifications-

AI Product Management Specialisation, Duke University | Salesforce AI | Google Digital Transformation
Microsoft Azure | Agile Scrum, GSDC | ITIL 4 | Dubai Entrepreneurship Academy | 1 Million Prompts

WORK EXPERIENCE

MetLife | Bangalore, India | Product Management | Aug 2025 to Present

- Partnered with AI Labs and Data Science on Generative AI discovery, context engineering, and data-grounding for multi-agent platform decisions — made architecture feasibility calls that delivered a **24% engagement increase** and **43% operational efficiency gain**.
- Owned NBA agentic workflow platform — multi-agent automation layer integrating intent resolution, case routing, and CoPilot decision APIs — reducing Average Handle Time by **30%**; defined platform reliability KPIs and monitored production performance.
- Directed AI platform roadmap for an **\$18M global portfolio**; used analytics and usage data to prioritise integration investments, backlog items, and adoption initiatives, securing a **15% profitability lift**.
- Achieved **30% market penetration growth** through AI platform onboarding automation — shipped fast, measured adoption, iterated based on engagement metrics.

Kimberly-Clark Pvt Ltd | Bangalore, India | Product Management | Nov 2022 to Jan 2025

- Owned an **\$18M global multi-agent AI platform portfolio** — Voice, SMS, WhatsApp pipelines each functioning as independent integration layers across 20+ enterprise markets; made prioritisation calls across reliability, integrations, and builder tooling.
- Applied OPD/1PD/2PD data loops and predictive analytics to drive platform adoption; used usage metrics to identify high-impact integration investments delivering a **15% profitability lift** and **24% engagement uplift**.
- Defined NLP-powered Salesforce AI product architecture, expanding market share by **30%**; governed data residency and compliance across international deployments at platform scale.

Sprinklr | Bangalore, India | Lead Product Consultant | May 2021 to Nov 2022

- Led platform product delivery for CCaaS, Salesforce CRM, and MarTech/AdTech across **25 high-ARR enterprise accounts**; applied analytics-led prioritisation to boost platform performance by **50%** and lead conversions by **45%**.
- Onboarded **10 new enterprise customers** to Sprinklr's platform; drove adoption measurement and internal activation, achieving a **15% CSAT improvement** and **10% uplift in user activation**.
- Worked with Engineering and Design to ship integration improvements based on customer usage data — a direct analogue to Relevance AI's builder/integration PM scope.

ITC Infotech | Bangalore, India | Business Analyst | Dec 2019 to Apr 2021

- Built a VoC NLP feedback pipeline for an insurance platform, integrating customer signals into product updates to reduce churn by **20%** and improve CSAT by **40%**.
- Prioritised high-impact features using data-driven Agile roadmap, delivering accelerated release cycles.

Tangban International | New Delhi, India | International Marketing Analyst | Apr 2017 to Nov 2019

- Increased market penetration by **30%** and client retention by **20%** through data-driven adoption strategies across international markets.
